

iOutreach, Inc.

Our Vision

iOutreach Inc. began with a vision of creating a culturally relevant tool to advance the Gospel of Jesus Christ. After several years of development, the result is a system that the Spirit of God is using to bring the truth 'home' to lost people. It is a system combining high tech capabilities and interpersonal appeal, and using a psycho-social approach to the Gospel that is culturally relevant to the times and mood of our world at this time in history. Here is a system that can be used to *credibly reach lost people for Christ* and a method whereby even the most timid believer can become an active participant in sharing the greatest good news ever heard. iOutreach, Inc. provides the tools and is nurturing the passion in believers for sharing Christ and spiritual growth. We invite you to join us in the adventure!

Sharing the
Gospel of Jesus
Christ Made Easy!

iOutreach, Inc.

ADVANCING
THE GOSPEL OF
JESUS CHRIST

iOutreach, Inc.

Have you wondered “Is there an easier way to share Jesus?”

Here it is!

Every child of God wants to help make an impact for the Gospel. The hope it presents is truly life-changing. Here's an **easy** tool to use to experience the joy of sharing Jesus.

It's a **simple** process involving a card and the internet with a tracking tool you can really use! We use a high quality, coated card the size of a business card. We call them 'mystery cards'.

We carry these and look for opportunities to use them such as with a tip at a restaurant, leaving one on a park bench, or posting it on your facebook. The possibilities are endless without the awkwardness of finding the right words or the fear of being challenged.

Sponsor and share cards

Your cards direct inquiries to a brief but powerful online Gospel presentation – www.Answer2Mystery.com (Try it using demo code “share”)

Recipients also have the opportunity to receive a FREE booklet “*What On Earth Am I Here For?*” All responses from cards you and/or your organization gives triggers an immediate email notification to you through your personal, custom code. Based on the responses, you may have the chance to further engage and share more of the Gospel of Jesus Christ.

Whether you are outgoing or introverted, a single person or a group, “mystery cards” are an effective and fun way to share the Gospel.

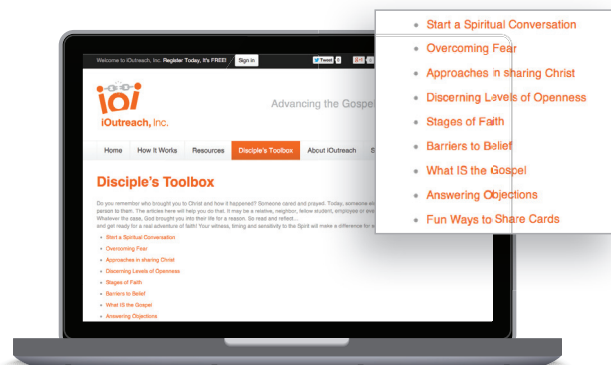

Engage

You are then able to track responses, history and purchase cards through your **‘Dashboard’** and have the opportunity to engage with seekers.

Learn

Lastly, through the iOutreach Inc. website, you also have **‘Resources’** and a **‘Disciple's Toolbox’** you may use and share with others as additional follow-up materials for spiritual growth.
